

REMARKS/ARGUMENTS

Applicants wish to thank Examiner Zimmer for the indication that Claims 1, 4-7, 9, 11, 15, 17, 19, 20, 23-27 and 30-35 are allowed in the present application.

During a review of the present application, Applicants noted the omission in Claim 30 of two organic polymers, transparent ABS and styrene copolymers. These two organic polymers were allowed in presently allowed Claims 20, 23 and 27. Furthermore, support for these two polymers is found in the specification at page 7, lines 14 and 15 and in Example 9.

No new matter is believed to have been added by the present amendment.

Furthermore, since these two organic polymers appear in presently allowed claims, Applicants believe that the amendments do not raise any new issues of patentability.

Applicants submit that the present application is now in condition for allowance. Early notice to this effect is earnestly solicited.

Respectfully submitted,
